SUPERIOR PERFORMANCE CARTRIDGE FILTERS

BF Series Cartridge Filter

BF Series filters offer superior quality, value and convenience in cartridge filtration. With precision engineering using high-strength, long lasting polypropylene, the BF Series cartridge filters are the obvious choice for the most demanding applications and harsh Australian environmental conditions.

BF Series cartridge filters have been cleverly designed to incorporate an extra large filtration element thus allowing for a greater effective filtration area. The BF Series is compact, light weight and highly durable.

BF Series cartridge filters will help maintain a clean and healthy pool for your family season after season!

Each filter is covered by a limited 5 year warranty on the tank and 12 month warranty on the valve, lid and internals.

Features the BF Series

- New high impact, long lasting polypropylene configuration for maximum benefit against the harsh Australian conditions
- Injection molded base and body to provide added strength and reliability
- Extra large filtration element for maximum cleaning performance
- Reinforced filtration element for extra strength and durability
- Suitable for all pools and spas, fresh and salt water
- Compact and thin making it ideal for smaller spaces
- Auto pressure release preventing damage to pump
- Easy installation with both 40 & 50mm barrel unions
- Easy access to cartridge element via heavy duty lock ring
